Profile

Computer science student nearing graduation from the University of Alabama, with a strong foundation in programming, data structures, and algorithms. Previous experience in the service industry has constructed teamwork, customer service, and adaptability skills. Eager to transition into the tech industry and apply both academic knowledge and practical experience in an entry-level software development position.

Relevant Skills

- Languages include C, C++, Python, Java, Javascript, HTML/CSS, SQL, MongoDB, as well as Bash and Shell scripting.
- Experience with Front End Frameworks such as Node.js, React, and Streamlit
- Experience with cloud platforms such as AWS and GCP and containerization (Docker)
- UI/UX Design
- Version Control (Git)
- MS Office + Adobe Creative Cloud
- Communication and Teamwork skills
- Fast learner and adaptive person

Education

The University of Alabama College of Engineering, Tuscaloosa, AL
Bachelor of Science in Computer Science

December 2024

During studies at the University of Alabama, a strong foundation in computer science was developed, with expertise in C, C++, Java, and Python. Mastery of data structures and algorithms was achieved, leading to application of efficient, optimized code. Coursework and projects provided practical experience in version control, database management, and microcontroller programming, enhancing critical thinking and problem-solving skills. Collaboration on team projects demonstrated effective teamwork and contributed to completion of software solutions.

Work Experience

Bartender, Nocturnal Tavern, Tuscaloosa, Alabama

Feb 2023 - Present

- Lead a team of bartenders to ensure efficient, high-quality service in a fast-paced, high-volume environment.
- Implement strategies to streamline workflow, resulting in improved service speed and overall team productivity.
- Foster a positive and dynamic atmosphere, promoting teamwork and adaptability under pressure.

Shift Lead / Bartender, Central Mesa, Tuscaloosa, Alabama

May 2019 - Present

- Develop leadership and problem-solving skills by managing conflict resolution, training staff, and ensuring compliance with safety and service standards.
- Excelled in delivering exceptional guest experiences while managing a fast-paced and dynamic restaurant environment.
- Improved operational efficiency through proactive problem-solving and effective communication with kitchen and front-of-house teams.
